

SECURA ensures compliance and employee productivity

Insurance

Country: **United States**

Employees: **~11,000**

Industry: **Insurance – property and casualty**

SECURA Insurance operates in 13 U.S. states, providing its services through independent agents. The company is on a mission to provide top-quality coverage and unmatched service to customers.

SECURA deployed Identity Manager to bolster its security and compliance disciplines while eliminating the inefficiencies and errors associated with manual processes.

The SECURA experience

“We chose Identity Manager because it fit our mid-market environment, met our requirements, and had the extensibility to support our changing needs.”

-Joe Albers, Senior Information Security Engineer, SECURA Insurance

Benefits

- Automated, consistent management of identities
- Timely, accurate provisioning and deprovisioning of user credentials
- Superior employee experience with appropriate access rights on the first day at work
- Trustworthy, annual compliance attestations with a view to generating them more frequently
